This **327th Infantry** website is a compilation of two previous websites. The former **327th Infantry Bastogne** and the **1st and 2nd Battalions of the 327th Infantry Regiment, Vietnam Veterans** websites have been combined into this new **327th Infantry** site. Here in one site you will find the 327th history and the 327th today.

There have been substantial changes made throughout...first and foremost the site is now a fully content managed website with significant interaction between the viewers and the webmasters. The **GUESTBOOKS** have been combined into one larger guestbook. There is a **NEWS** section which carries RSS feeds about current articles that impact the military and a **327th NEWS** section that will have articles on the changes within this website and articles that pertain directly to the 327th Infantry.

Another new addition is the section called **"From the Front"** which will be a compilation of trooper letters and reports both past and present, all...From the Front.

To help support this website there is the Online STORE (PX) from which you can purchase some great merchandise.

We are excited about our new website and ask for your understanding if you come across any strange looking pages. Please take a moment to write to us and let us know the page that is not right and we will quickly correct it. This is a LARGE website...over 750 pages and growing...so enjoy your visit!
